STATE OF ALABAMA

DEPARTMENT OF INSURANCE

135 SOUTH UNION STREET
MONTGOMERY, ALABAMA 36130

MIKE WEAVER
COMMISSIONER OF INSURANCE

November 1, 1991

Honorable Guy Hunt
Governor of Alabama
State House
Montgomery, Alabama 36130

Dear Governor Hunt:

I am pleased to present to you the 1991 Annual Report of the Department of Insurance.

As required by the Code of Alabama 1975, Section 27-2-9, pertinent data on all insurance companies authorized to transact business under the regulatory authority of this Department is duly documented.

The statistical data used in the financial section of this report comes directly from Annual Statements filed by the various companies, without audit or verification.

Respectfully submitted,

Mike Weaver
Commissioner

dkh

Summary of Operations

The insurance business in Alabama increased in Alabama during 1990 with Alabamians paying \$6,130,568,872 in premiums for all types of insurance, an increase of approximately 2.6%. The 1990 growth rate may be compared to 8.3% in 1989, 5.3% in 1988, 3.0% in 1987, 16.6% in 1986, 12.9% in 1985, 13.2% in 1984, and 6.3% in 1983.

Premiums collected by property and casualty companies decreased by .5% to \$2,389,077,000 from the previous year, and the direct premium and annuity consideration for all life companies increased by 2.3% to \$1,357,363,000. Accident and health premiums totaled \$2,352,410,181, an increase of 11.8%. Title insurance premiums totaled \$16,451,615.

In 1990, the insurance industry paid to the Department \$148,776,362 in premium taxes and fees. Of this amount, \$113.6 million was deposited to the General Fund, and \$33.9 million to the Special Education Trust Fund.

Statistical data covering insurance premiums and losses are for calendar year 1990 and are compiled from data furnished by the Central Office of the National Association of Insurance Commissioners. Information regarding premium taxes and fees collected by the Department and Departmental disbursements is for the calendar year October 1, 1989 - September 30, 1990.

The Insurance Department consists of six operational divisions: Agents' Licensing and testing, Consumer Services, Insurance, Receivership, Legal and Financial Examination. Also a part of the Insurance Department is the State Fire Marshal's office. The Commissioner of Insurance is an ex-officio member of both the Alabama Securities Commission and the Alabama Arson Prevention Tax Force.

Alabama's insurance laws require that all contracts of insurance, other than uncontrolled marine and aviation policies, be approved by the Department prior to their use in this state. A consulting actuarial firm is employed to review all life, accident and health policy forms. Any variance from required provisions of the Code or Departmental Regulations must be corrected prior to their acceptance.

There is no price regulation over life, accident and health insurance, except for certain Blue Cross - Blue Shield policies and Medicare supplement policies. Most property and liability rates are subject to the Department's approval. Services of consulting actuaries are obtained, when needed, to assist the staff in the evaluation of those rate filings requiring regulatory approval.

Re: Annual Report for 1990

Dear Sir:

In accordance with Section 36-19-26, Code of Alabama, 1975, the 1990 annual report of the State Fire Marshal's Office is respectfully submitted.

During 1990 this office was involved in 942 fire and explosion related investigations, representing an increase of 199 investigations more than for 1989. Although several factors may account for this increase, the two most significant factors were the additional deputies which were hired in 1989 and 1990, and the economic decline throughout the country.

As expected, the increased personnel and number of investigations resulted in a significant increase in the number of arrests for arson and related crimes. In 1989, 158 arrests were made and 112 cases were cleared by conviction or exceptional means. During 1990, 211 arrests were made and 146 cases were cleared by conviction or exceptional means.

The arrest and clearance figures are most significant when compared to the national average which is approximately 7% arrests and 7% convictions. Based on the national averages, this office would be expected to make only 25 arrests from the 359 cases identified as arson by the end of 1990, which would then result in only 2 convictions.

Fire related death investigations increased from 138 for 1989 to 148 for 1990. Two fires in 1990 resulted in seven (7) deaths each, both fires being accidental and occurring in residential occupancies. In addition to these two major death cases, four (4) lives were lost in a domiciliary fire in Jefferson County. Although a fire protection sprinkler system had been installed recently, the inadequate water supply to the system failed to provide sufficient water to suppress the accidental fire caused by a misuse of smoking materials.

Efforts are underway to identify other sprinkler systems in domiciliaries which may have this same problem. In addition, recommendations have been made to the National Fire Protection Association to update existing fire codes to mandate post-installation and annual testing of these system to insure their proper performance in the event of fire.

Inspections for 1990 included 713 general inspections and 879 fireworks inspections, for a total of 1,592. These figures will continue to increase as we work to comply with state law, court orders, and individual requests for inspections. The general inspections increased by 140 from 1989 to 1990, and are the most time consuming for the deputies.

Three (3) Deputy State Fire Marshals and one (1) Clerk Typist I were hired, bringing the division staffing to eighteen (18). This personnel allowed us to further reduce the size of individual districts assigned to deputies, thereby making workloads more manageable. Likewise, with the increase in office personnel, processing of mail, reports, and requests for assistance have been improved.

The accelerant detection dog program has produced significant results and has allowed us to perform better fire/explosion scene examinations than ever before. The first dog team became active in May, while the second and third teams became active in November. These teams responded to over two dozen scenes in 1990, and conducted sixteen (16) demonstrations in Alabama and one (1) in Mississippi.

In January 1990 we went on line with our National Crime Information Center terminal. This has enabled us to identify individuals, who we were investigating, who had prior criminal records, locate fleeing felons, and identify stolen property located during investigations.

At the request of both the Senate and House of the State Legislature, we provided assistance to in-house security personnel during the 1990 legislature. Crowds at the State House were unusually high during portions of the legislative session, and special emphasis was required regarding crowd control, exit access, and overcrowding of rooms and hallways.

The Assistant State Fire Marshal position has not been filled. We have done some developmental work regarding establishment of a statewide arson reporting computer network, which will enable us to comply with existing state laws for maintaining information regarding fires and arson throughout Alabama.

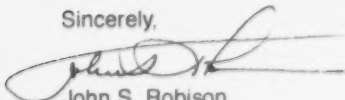

A plans review person, non-law enforcement inspectors, and a capitol complex inspector are vitally needed. As we are now operating, we must rely on architects to properly design buildings and comply with codes, although many architects call us saying they don't know what code to apply to a specific type occupancy. Likewise, the increase in general inspections places more work on the existing deputies, who are also working more investigations than ever before.

We are presently involved in litigation regarding handicapped access to the State House, although we were unaware of any existing non-compliance problems within that building until after the suit was filed by a state employee. An in-house plans review person and a capitol complex inspector could have identified these problems before a suit was filed, and could have obtained code compliance as needed. As the state builds and occupies more buildings within the complex, the potential for this type problem can only increase.

On behalf of every employee in this office, I would like to thank you and Governor Hunt for your support during 1990. We are better equipped, trained, and staffed than ever before. None of this would have been possible had you and the Governor not seen fit to provide for our needs, so that we could respond to our duties and responsibilities as outlined in the Code of Alabama.

These improvements have been noted by law enforcement agencies, fire departments, other state agencies, and individual citizens throughout Alabama, and the results are obvious. We are confident that these and future efforts will enable all of us to make Alabama a more fire safe state.

Sincerely,

John S. Robison
State Fire Marshal
